This information cannot be used, duplicated or disseminated without approval from the author.

The information in this report is current to 2022-02-04 at 1230 hours.

Owing to the current social protest landscape this Situation Report is organized into three main sections, each with specific information relevant to **Ottawa, Toronto, and Ontario.**

PREFACE: *The format of this Situation Report delineates between police information and information gathered through open sources. Media and social media information has been incorporated in this report towards developing all-source intelligence in support of providing greater context, and which may identify indicators, ideologies, and attitudes that could motivate subjects of interest and influence their behaviours.*

SIGNIFICANT INFORMATION (ALL)

OPP Open Source Specialists have identified a Google Drive folder that contains daily reports produced by someone supporting or participating in the Ottawa blockade. (CONFIRMED)

The folder contains reports that date back to 2022-01-27. Some are presented as reports of daily events and safety considerations; others as intelligence reports, and others as warnings of potential violence from police and other groups. They provide valuable insight into the mindset of the organizers and participants, and provide direction of expected behaviour by blockade participants in response to events and requirements on the ground. They contain information regarding advance planning and preparation, as well as ongoing day-to-day tactical and logistical planning.

The content of the reports is indicative of an intent for all participants to have a common understanding of goals and tactics, and to respond similarly to law enforcement, the media, and members of other groups that may have their own agendas, with a focus on members of ANTIFA. They also demonstrate the desire to control the messaging around the blockade.

PROTECTED B

Unconfirmed information suggests that groups from Barrie, Muskoka, Bradford, Oakville and Oshawa may travel to Toronto to join the protest. Police Services of Jurisdiction have advised they will monitor and report numbers.

Halton Regional Police report that a Freedom Convoy is planned from Oakville to Queens Park and they will advise of numbers.

Truck drivers in the Ottawa blockade are expected to participate in the convoy to Queens Park in Toronto on 2022-02-05. All truck drivers in the GTA have been invited to participate. They have been requested not to bring their trailers. The event is being promoted online as "kid friendly and peaceful".

Open source information indicates that a counter-protest ("STOP THE TRUCKER CONVOY FROM BLOCKING TORONTO HOSPITALS") is planned for 2022-02-05 starting at University Avenue and Gerrard Street at 1130 hours (also in **Event Schedule**). The event is being promoted online by an associate of [REDACTED] and its stated aim is to prevent the truck drivers from blocking Hospital Row. Online promotion of the event uses extremist rhetoric and focuses on extremist emblems in images of the Freedom Convoy protest in Ottawa on 2021-01-29/30.

Ontario: POLICE INFORMATION & OBSERVATIONS

ASSESSMENT

The protest landscape related to public health restrictions and vaccine mandates is fluid and dynamic, with solidarity demonstrations or convoys developing in many jurisdictions.

There is a potential for conflict amongst individuals and groups with differing agendas at these protests, which could pose both a public safety and officer safety threat.

Project HENDON has not identified any concrete, specific, or credible threat with regard to the Freedom Convoy protest, Operation BearHug 2.0., or local solidarity protests. However, a lone actor or group of individuals could enact a threat with little or no warning.

TACTICAL CONSIDERATIONS

Police reporting indicates that counter-protestors may be planning to throw frozen bottles of water at truck convoys.

Other tactical considerations that may be derived from events in Ottawa could include protestors disabling their vehicles; constructing shelters; building fires; or ramming police vehicles or other barricades.

ANTICIPATED EVENT SCHEDULE – Support Convoys or Demonstrations

This list is derived from information provided by the OPP and its partners. Many of these events have been identified through social media.

The overall situation is fluid: these events may change and spontaneous events may occur without warning.

At this time we have little reporting on expected numbers, intentions, or mood of possible attendees that would assist in prioritizing requests for OPP personnel.
